GENDER DISCUSSION AT NYAMASHEKE YFC: DEBATE ON LOW PARTICIPANT OF WOMEN IN DOT PROGRAMS

We conducting this discussion for knowing the reason why the women are not participate the same revel with man and how we can over came this challenge. The guests invited were: CNF representative in KAGANO Sector (Valentine NYIRANSABIMANA),coordinator of Nyamasheke YFC (Javier NDANGA), animateur of Nyamasheke YFC (Etienne SINZINKAYO) and animatrice of Nyamasheke YFC (Denyse MUKANDORI) The attendance was 44 participants 12 women and 32 men it was both programs (RU and SU).

The event started at 3h15min where we started by showing the participants and guests the participation of women in DOT programs where women are ½ of man in both programs (RU and SU) we continued explaining the topic and showing the rules and regulations of debate in general.In brief everybody had the right of sharing his/her ideas others agree or disagree depending of their understanding.

The raisons focused by participants are: culture, parents, the rival o understanding, doesn't see the result from those programs, fear and lowe motivation which different to the guest understanding where the guest agree all ideasExcept one concerning to parents.

***Culture:** To get information for women is not easy because if the wome leave their home they go very fast with the specific purpose without g behind and this caused luck of information meaning that they don't ge enough time to share with others important things and if they get a tim they take the time for talking unnecessary things The culture also is barrier because it obliges the girls things do many things at home compa to boys which are barrier of participation in many communities program **Parent:** some parent is barrier because they give not enough time t girls to participate in many activities. One participant gave a example she said: On Sunday when we go to church the parent tol to girls to come back home before the end of assemble for welcome th guest.**The rival of understanding:** the women fear of some work they don fill comfortable for all work, they don't have the ability of readin communications this lead to unknown of different opportunities like DO programs, some girls are not interested because their focused on marriag without seeing what will happen in future.*

***The guest** helps the participants to over comes those barriers;According t CNF representative in Kagano sector the culture and parent are not barri because the girl must explain to the parent the advantage of participate o those programs and overcome the culture which prevent them t participate in DOT programs she didn't see it as a problem* because every woman is able *as a man. encourages them to **sensitize** the colleagues to participate in DOT programs.*

*According to **coordinator** of NYAMASHEKE YFC the **rival of understanding** and the **behavior** of girl are many barriers which prevent th women to participate in different programs, he gave an example of a paren who can told to her girl to go and buy salt in 1km and she spends 4hours, the parent can't have confident to her when she told to him/her I m going to participate in DOT programs like RU!*

***As conclusion:** CNF will help NYFC & DOT in Mobilization of women and encourage them to participate in DOT programs.*
